NEWS SCALPS JOURNAL.

(Niles News.)

W. H. Coffee, of Cleveland, was in town Thursday. He looked out of the window in his room at the Park hotel in Warren Wednesday night at 9 o'clock and saw only one person on the street. Warren is now dead from a business standpoint, most of the trade coming to Youngstown and the business men of both places will contribute to the local option fund in an effort to make Youngstown a "dry" in order to get back the part they have lost—Youngstown Journal.

It is very probable that Mr. Coffee, being wise, and having business in Warren, never said what he is quoted as having said, in the Journal. Evidently the Journal has become so frightened at the probability of Mahoning county being voted dry, which would mean a blow to the Journal, that it indulges in wild fancies about conditions in Warren and other places in dry territory, even to putting visitors to its town in the light of disparaging the cities in dry territory. Some day the Journal will wake up to the fact that it is playing winner by trying to save Youngstown from going dry by attempting to belittle the cities in dry territory.
